## Background

The African American Heritage Preservation Grant Program was created during the 2010 session of the Maryland General Assembly. The Program is administered as a joint partnership of the Maryland Commission on African American History and Culture (MCAAHC), a unit of the Governor's Office of Community Initiatives (GOCI), and the Maryland Historical Trust (MHT), an agency of the Maryland Department of Planning (MDP). The purpose of this Program is to encourage the identification and preservation of buildings, sites, and communities of historical and cultural importance to the African American experience in Maryland.

Eligible applicants for Program funding include non-profit organizations and local jurisdictions. Business entities and individuals may also apply for Program grants when seeking funds for a preservation or development project that serves a high public purpose. Eligible activities include acquisition, construction, and capital improvement of buildings, sites, or communities of historical or cultural importance to the African American experience in Maryland as well as pre-development costs directly associated with an acquisition or construction project. Such pre-development costs may cover historic structures reports and studies, the preparation of plans and specifications, necessary archeological investigations, and reasonable fees for architectural, design, engineering and other special services.

These grantees were notified of their awards in May 2012, after the approval of the FY2013 Governor's Capital Budget. A press release describing the program and detailing the grant awards was distributed on July 9, 2012.

In the summer and early fall, site visits involving MHT and MCAAHC / GOCI staff have been made to many properties, and projects are getting underway. To date ten of fifteen grant agreements have been approved by the Board of Public Works; grantees and MHT and MCAAHC/GOCI staff have made brief remarks at the BPW meetings.

### ***Fiscal Year 2014 Grant Applications***

Applications, instructions, and program guidelines for FY2014 funding were made available in January 2012 via MHT's website. A press release on February 10, 2012 announced the availability of the applications and also announced a series of five workshops for potential applicants in locations across the state:

<b>Date</b>	<b>Partner Institution</b>	<b>Location</b>
March 7, 2012	Sojourner-Douglass College	Cambridge, MD
March 10, 2012	Fairmount Heights Library	Fairmount Heights, MD

These workshops, which were specific to this grant program, reached and informed at least 75 interested individuals. Throughout the spring and summer, MHT and MCAAHC staff responded to specific inquiries from potential applicants and provided guidance about the application process.

Sixteen eligible applications for FY2014 funding were received by the postmark deadline of July 15, 2012. The total funding request was approximately \$1,476,400; the majority of the funding requested was for rehabilitation, with the remainder for acquisition and predevelopment costs. Applications represented 12 counties and the City of Baltimore.

After a threshold review of the applications by MHT staff, MCAAHC evaluated eligible applicants in accordance with the project selection criteria during August and September of 2012. On October 1, 2012, MCAAHC will meet to rank and develop recommended funding levels for FY2014 and will transmit recommendations to the MHT Board on October 4, 2012.

On or before November 1, MCAAHC and MHT will forward the list of projects and grantees recommended by MCAAHC and the MHT as a recommendation to the Department of Budget and Management for inclusion in the Governor's Capital Budget for Fiscal Year 2014.

### ***Ongoing Program Activity***

MHT and MCAAHC staff, along with staff from MHAA, DHCD, SHA, the Maryland Humanities Council, and Preservation Maryland, offer grant workshops covering a range of funding options for preservation projects. Typically there are three workshops each September in various locations across the state. The African American Heritage Preservation Program is featured in these workshops.

## ***Notable Accomplishments & Project Updates***

**Dr. Joni Jones, Director of MCAAHC and Executive Director of the Banneker-Douglass Museum**, attended the National Trust for Historic Preservation's National Rosenwald Schools Conference at Tuskegee University in Tuskegee, Alabama from June 14-16, 2012. According to Dr. Jones, "Attending the conference was a great way to super-charge those involved in school preservation, especially the many committed volunteers. It also allowed us to build connections between states, which led to several conversations about multi-state programming possibilities."

### **San Domingo Rosenwald School, Wicomico County:**

*With exterior rehabilitation nearly complete under MHT Capital Grant funding (see before and after photos at right), work on the interior is now well underway using AAHPP funding. New electrical and HVAC systems are being installed, as well as accessible restrooms and a warming kitchen. Below: Tony White of GOCI and MCAAHC Chairman Ted Mack tour the construction site with grantee and San Domingo alumnus Newell Quinton.*

**Sandy Spring Slave Museum,  
Montgomery County:**

*Repairs to the main museum building and accessory structures, including the log cabin (shown at near right), slave ship (shown at far right), statue, and arts pavilion, have been successfully completed. Work included cleaning, carpentry repairs, HVAC and electrical upgrades, and weatherproofing.*

**Christ Rock Church, Dorchester County:**

*Exterior rehabilitation is progressing rapidly, funded through an MHT Capital Grant as well as AAHPP grants. Wood framing members were termite-eaten and required replacement, and the building had to be lifted while the entire foundation was replaced. Fabrication of appropriate replacement windows and restoration of roof and siding will follow. The church will become a museum and community center and is located along the Harriet Tubman Underground Railroad Byway.*

*Before (left) and during rehabilitation (right)*

**Sandy Spring Odd Fellows Lodge,  
Montgomery County:**

*The structure was stabilized in 2008 using MHT Capital Grant funding; AAHPP funding provided a means for the owner to afford historically appropriate replacement windows and a front door. The new windows truly restore the personality of the building. Below, architect Tom Taltavull, Larry Oyler of Structural Preservation Services, and grantee Laura Anderson Wright examine the replacement windows prior to installation.*
